

Ammo Vehicle

This article is a part of [Arma 3 Asset Guides](#).

Description

The Ammo Vehicle is used to rearm vehicle weapons. Their primary function is to be stored within the Garage to act as an Ammo Source. They can also be used in the field to rearm things like tanks, mortars, etc. though this is not recommended unless you have a spare ammo source at base.

Commanders should always lock source vehicles in the garage such as Ammo Vehicles.

Ammo Vehicles are not necessarily always cargo trucks. Some factions use HMMWVs, APCs, or other vehicle types.

How to Acquire

Ammo Vehicles in Antistasi Ultimate will never spawn in towns or on roads without an escort as part of a convoy. They can be found in [Airbases](#), [Military Bases](#), and on [Outposts](#). If you're lucky they will also spawn as part of [Convoy](#) and [Logistics](#) missions.
