

Arma 3 Antistasi Rules

These rules are complimentary to — and do not supersede — our [Community Rules](#).

Please take a moment to familiarize yourself with our Arma 3 Antistasi server rules before joining.

① Limit Friendly Fire ✕

- **Your bullets are every bit as deadly to friend as they are to foe!**
- **Always** 🎧 **check your backblast with launchers** and use caution when tossing grenades!
- Know roughly where your shells will land before firing mortars/artillery/etc.

② Base Conduct ☐

- **If you are the first to spawn at HQ, ensure Petros is safely sheltered indoors!**
 - If Petros is left outside he may be killed by passing enemy patrols or errant air strikes.
 - Petros being in cover also gives him a fighting chance in the event [Defend Petros](#) is triggered and no one can reach him in time.
- Do not engage in disruptive behavior at friendly locations. This includes:
 - Damaging structures
 - Stealing or moving equipment/emplacements without approval
 - Hindering other players' activities

③ Vehicles & Equipment ☐

- **Please use vehicles and equipment responsibly.** They are expensive!
- **Never remove source vehicles (repair, fuel, ammo) from the garage!**
- You may notify admin of assets destroyed due to bugs, though we cannot guarantee their replacement.
- **Do not waste resources or leave vehicles unattended** in vulnerable areas.
 - When finished striking an objective, make sure to gather up your belongings and garage them if it's safe to do so!

④ Explosives Etiquette ☐

- Refrain from leaving unattended [explosives](#) lying around!
- Minefields should be clearly marked on the map!
- Commanders should seek to minimize usage of minefield supports.

⑤ **Be a Team Player** □

- Limit operations to a single objective at a time. Reasons being:
 - Teamwork makes things easier and more fun.
 - The engine itself can only handle about 200 AI total without HC clients.
 - Once this limit is reached, server FPS craters and AI behavior becomes wonky.

⑥ **Please, Report Issues!** □

- Use our Discord #□support channel to let staff know of any problems encountered.

⑦ **Cheats and Exploits** □

- Cheating and exploiting are not allowed.
- This includes using bugs or glitches to gain an unfair advantage.

⑧ **Respect Others** □

- Treat other players with respect.
- No harassment, bullying, or toxic behavior.

⑨ **Staff Roles** □♂

- Staff and administrators are here to help.
- They have the authority to make decisions and enforce rules.

⑩ **Penalties** □

- Warnings may be issued for minor infractions.
- Temporary or permanent bans may be issued for repeated or severe infractions.

□ **Updates and Changes** □

- Rules may be updated or changed at any time.
- Changes to rules will be posted here and on Discord at the discretion of staff.
